DETAILED ACTION***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/7/2006 has been entered. Claims 1, 10, 12-15, and 16 are amended, and claims 21-26 added. Claims 1-10 and 12-26 are pending.

Allowable Subject Matter

Claims 1-10 and 12-26 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art a laser including a gain medium within a resonator, a birefringent lens within the resonator that focuses and affects the polarity of light from the gain medium, where the birefringent lens directly receives light from the gain medium and a mirror of the resonator directly receives the light from the birefringent lens. That is, there is no other element between the lens and the gain medium, or between the lens and the mirror. The See reference, previously used to reject the claims, includes additional elements and therefore cannot meet the "directly receive" limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2828

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
